

Registration in OKTE test environment for the ICP Member Tests

In order to participate in the upcoming Member Tests of the Interim Coupling project it is necessary for the market participants to:

- have an access to the testing environment
- send an email address to be used to receive notifications during the testing to dayahead@okte.sk

Access to OKTE test environment:

- If the access has been established in the past, it remains functional.
- If the market participant does not have the access, they can request it via the application form „Request for testing XMtrade®/ISOT system“ that can be found on [OKTE website](#) along with a valid certificate from an accepted certification authority to the address dayahead@okte.sk

Requests for the establishment of accounts in the test environment and the sending of an e-mail address for notifications to the address dayahead@okte.sk is possible until 26.05.2021 EOD.
